

My Professional Portfolio

Software Engineering Student & Web Developer

My Professional Identity

Welcome to my semantic web portfolio. I am an aspiring software engineer passionate about accessible web design, data organization, and clean architectural patterns.

This site serves as a demonstration of HTML5 standards, completely free of generic containers, ensuring maximum accessibility for screen readers.

Current Focus

Currently mastering Internet Technologies and Version Control workflows.

About Me: Background & Expertise

Career Milestones

- 1 Enrolled in Software Engineering (SWE2106).
- 2 Mastered fundamental HTML5 tags and basic web accessibility.
- 3 Led a collaborative team for the Semantic Web Etivity.
- 4 Planning to deploy first full-stack application.

Technical Terminology

Semantic HTML

The use of HTML markup to reinforce the semantics, or meaning, of the information in webpages rather than merely to define its presentation.

Version Control (Git)

A system that records changes to a file or set of files over time so that you can recall specific versions later.

Accessibility (a11y)

The practice of making websites usable by as many people as possible, including those with disabilities.

Fig 3: Clean, semantic code implementation.

Project Demonstration

Video Demo: Navigating the semantic portfolio.

Your browser does not support the HTML5 video tag. Please view the demo on my [GitHub](#).

Academic Marks & Proficiency

SWE2106 Progress Table

Current Academic Standing in Internet Technologies

Assessment Type	Topic Focus	Score / Status
Lab 1 & 2	Basic HTML & File Structures	95%
Lab 3 & 4	Semantic HTML5 & Accessibility	88%
Etivity 3	The Professional Semantic Portfolio	Pending Evaluation
Overall Average Grade		91.5%
